1 FIELD PROGRAMMABLE PRINTED CIRCUIT BOARD

2 Amr M. Mohsen

3

4

5 ABSTRACT OF THE DISCLOSURE

6 A field programmable printed circuit board is provided
7 which includes a multiplicity of component contacts for
8 making electrical contact to the leads of electronic
9 components to be mounted on the printed circuit board, a
10 corresponding multiplicity of interconnect contacts for
11 receipt of the leads on the package or packages of a
12 programmable integrated circuit or circuits for
13 interconnecting as desired the electronic components, and
14 one or more layers of conductive traces formed on the
15 printed circuit board, each conductive trace uniquely
16 connecting electrically one component contact to one
17 interconnect contact.
